Story

Transylvania - a small, peaceful country in the heart of medieval Europe.

The people of Transylvania whisper the legend of Dracula to their children at bedtime, only half-believing it to be untrue. "The forces of good keep a watchful eye over the land, protecting all who live here. But even during the constant vigil, the forces of evil manage to prevail once every century. Each time this happens, human beings with evil hearts begin to chant unspeakable prayers. Thus is Dracula, the Prince of Darkness, resurrected upon the face of the earth. And each time he is manifested, his powers grow stronger." Once, long ago, Dracula was indeed revived in this manner. However, his ambitions to plunge the world into darkness and build a kingdom of evil were crushed by the hero Christopher Belmont.

Following Dracula's demise at the hands of Christopher Belmont, the Transylvanian countryside slept peacefully for 100 years. Then one Easter night, the townspeople were celebrating the joyous holiday with a splendid carnival. But, in the ruins of the old monastery on the edge of town, the followers of darkness were holding a Black Mass to revive the evil Count and give him eternal life. They poured a sacrifice of human blood over his remains. As they did so, an ominous thundercloud enveloped the town. Suddenly, a single bolt of lightning pierced the monastery. In that instant, Dracula, the Prince of Darkness, returned to this world to begin a new reign of terror.

But all was not lost. The successor to the Belmont family bloodline, a young man by the name of Simon, was determined to rid the land of this terrible evil. Taking the mysterious whip left to him by his father, he ventured into Dracula's castle to face the Count - alone.

Sound Test

You can only access the Sound Test in Original Mode. When the Title Menu is displayed, choose "SOUND MODE" using the directional buttons and press the  button to enter Sound Test Mode.

Select the tune with the Left and Right directional buttons and press the  button to play your selection.

Select EXIT to return to the game.

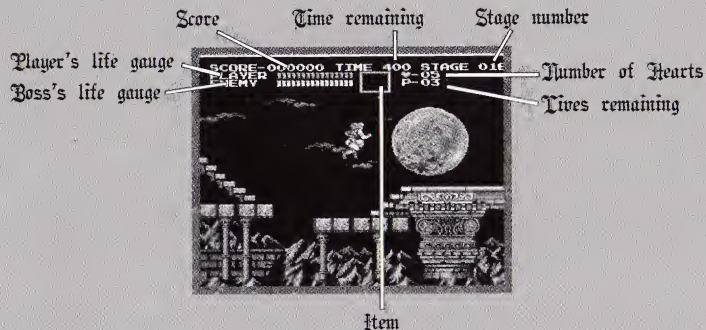

Game Play

The game is divided into 8 Blocks and each Block consists of 3 Stages. A Boss enemy awaits at the end of each Block. When you defeat a Boss, a magical energy sphere will appear. Grab it to advance to the next Block.

When you receive damage, your life gauge will decrease. If your life gauge reaches empty, you fall into a pit, you come into contact with a lethal trap, or you fail to finish the Block within the time limit, you will lose a life. The game ends when you lose all your lives. However, you may use the Continue option to start again from the beginning of the current Block.

When you use your whip or an Attack Item to defeat an enemy or destroy a candle, an Item will often appear. Collecting these Items will give you bonuses such as power-ups or special attacks. The number of times you can use a special attack is limited by the number of Hearts you possess.
